Duke University, USA

«The role of ChREBP in sugar-induced metabolic disease»

Host: Frédéric Preitner

Monday November 12, 2018

Katja Lamia,
The Scripps Research Institute, USA

«Cryptochromes integrate circadian rhythms with metabolism and genome protection»

Host: David Gatfield

Monday October 8, 2018

Gregory Jefferis,

University of Cambridge, UK

«Learning from connectomics on the fly»

Host: Richard Benton

Monday November 19, 2018

Stephan Gruber,

DMF, University of Lausanne, CH

«Getting chromosomes organized: The power of DNA looping motors»

Host: Andrzej Stasiak

Monday October 15, 2018 **at 16h15**

Beverly Davidson,

The Children's Hospital of Philadelphia, USA

«Emerging Therapies for Neurological Diseases»

Host: Vincent Dion

Monday November 26, 2018

Jody Rosenblatt,

University of Utah, USA

«Epithelial cell extrusion and its misregulation in disease»

Host: Fisun Hamaratoglu

Monday October 22, 2018

Lesley Jones,

Cardiff University, UK

«Genetic modifiers in Huntington's disease»

Host: Vincent Dion

Monday December 10, 2018

Matthias Hentze,

EMBL Heidelberg, DE

«Hidden treasures of the RNA world: RBPs from moonlighting to riboregulation»

Host: David Gatfield

Monday October 29, 2018

Michael S. Levine,

Princeton University, USA

«Transcription networks in animal development and evolution»

Host: Maria Cristina Gambetta

Monday December 17, 2018

Aleksandar Vjestica,

DMF, University of Lausanne, CH

«1+1=1 The formula of fateful sexual reproduction»

Host: Paul Franken
