

Génopode

welcome

CIG SEMINARS PROGRAM SPRING 2018

12:15 – Génopode, Dorigny – Auditorium A

Monday January 15, 2018

Jessica Downs,
The Institute of Cancer Research, London, UK
«Protective packaging for DNA; chromatin remodelling complexes and genome integrity in mammalian cells»
Host: Vincent Dion

Monday April 16, 2018

Bruce Stillman,
Cold Spring Harbor Lab, Cold Spring Harbor, USA
«Inheritance of the Genome in Eukaryotes: ORC and the Control of Cell Division»
Host: Winship Herr

Monday January 22, 2018

Aurelio Teleman,
DKFZ, Heidelberg, DE
«Regulation of mitochondria by a dietary metabolite»
Hosts: PhD students and Postdocs

Monday April 30, 2018

Mark Ibberson,
Vital-IT, Lausanne, CH
«Rhapsody in Blue? Federating clinical cohorts for biomarker analysis in type 2 diabetes»
Host: Paul Franken

Monday January 29, 2018

Nic Tapon,
The Francis Crick Institute, London, UK
«To be announced»
Host: Fisun Hamaratoglu

Monday May 28, 2018

Irene Miguel-Aliaga,
Imperial College, London, UK
«Hungry brains and clever guts»
Host: Richard Benton

Monday March 12, 2018

Erez Lieberman Aiden,
Rice University, Houston, USA
«A 3D code in the human genome»
Host: Andrzej Stasiak

Monday June 6, 2018

Maria Cristina Gambetta,
CIG, University of Lausanne, CH
«Organizing gene regulatory interactions: Identifying key players and their mechanisms of action»
Host: Paul Franken

Monday March 19, 2018

William P. Tansey,
Vanderbilt University Medical Center, Nashville, USA
«MYC, chromatin, and cancer»
Host: Winship Herr

Monday June 25, 2018

Jean-Yves Masson,
Université Laval, Québec, CA
«To be announced»
Host: Vincent Dion

Monday March 26, 2018

Frédéric Gachon,
EPFL, Lausanne, CH
«Impact of gut microbiota on sex-dimorphic liver gene expression and metabolism»
Host: Paul Franken

Monday July 2, 2018

Kirsten Sadler Edepli,
New York University in Abu Dhabi, UAE
«Epigenetic regulation of development and regeneration»
Host: Fisun Hamaratoglu
