

Génopode

welcome

# CIG SEMINARS PROGRAM SPRING 2020

12:15 – Génopode, Dorigny – Auditorium B

Monday January 27, 2020

**Doris Wagner,**  
University of Pennsylvania, USA  
«(Re)programming cell fate and function in the  
context of chromatin»  
Host: Christian Fankhauser

Monday April 27, 2020

**Dagmar Kratky,**  
University of Graz, Austria  
«Consequences of defective lipolysis: Lessons from  
mutant mouse models»  
Host: Lluis Fajas Coll

Monday February 24, 2020

**Emi Nagoshi,**  
University of Geneva, Switzerland  
«Circadian regulation of sleep in Drosophila»  
Host: Richard Benton

Monday May 11, 2020

**Maria (Charo) Robles,**  
Ludwig-Maximilians-Universität München, Germany  
«Using proteomics to study daily dynamics of  
physiology»  
Hosts: PhD students & Postdocs

Monday March 16, 2020

**Benedetta Bolognesi,**  
Centre for Genomic Regulation, Barcelona, Spain  
«Understanding disordered protein regions by deep  
mutagenesis»  
Host: Jolanda van Leeuwen

Monday May 18, 2020

**Suliana Manley,**  
EPFL, Lausanne, Switzerland  
«High-throughput super-resolution microscopy  
reveals organelle structure and dynamics»  
Host: Maria C. Gambetta

Monday June 29, 2020

**Herwig Baier,**  
Max Planck Institute of Neurobiology, Martinsried,  
Germany  
«Vision to action in the zebrafish brain»  
Host: Thomas Auer
