

PhD Fellowship

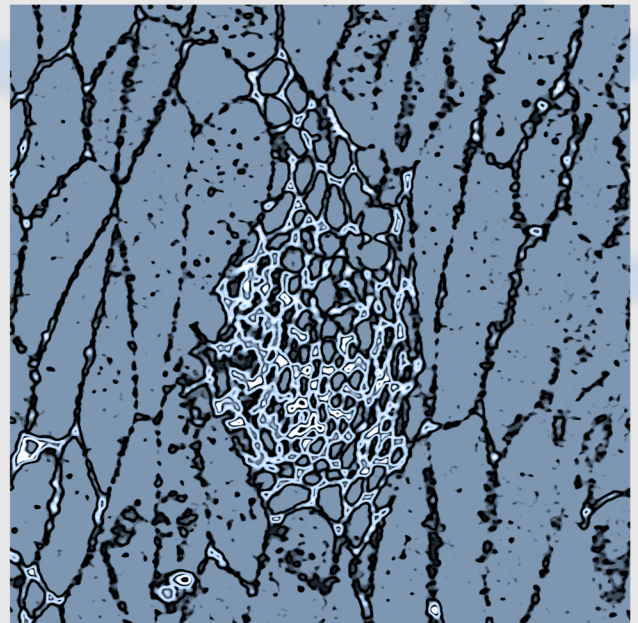

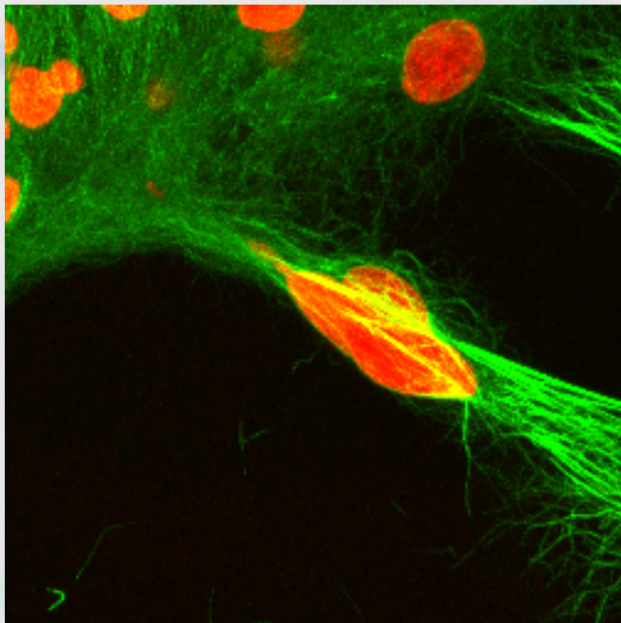

Instituto de Biología Molecular de Barcelona (CSIC)

We are looking for candidates to apply for a PhD fellowship under the FPU open call of the Spanish Department of Education (4 years)

(deadline December 16th 2013)

This is a very competitive programme that demands an outstanding academic record

We are looking for recent graduates in Biomedical or Physical Sciences of any nationality interested in joining an active multidisciplinary laboratory and participate in developing projects aiming to understand the cellular and mechanical regulation of morphogenetic processes both in *Drosophila* and Zebrafish
