

# 2nd International symposium

Molecular analysis at the tissue-specific and single-cell level

Paris, France

June 2-3, 2016

# Micr genomics 2016

## TOPICS

**Sampling methods** (flow cytometry, laser capture microdissection, single cell and exosome isolation methods, ...)

**Proteomics and Microgenomics**

**Nucleic Acids and Microgenomics**

## KEYNOTE LECTURERS

**Michael Kubista** (TATAA Biocenter, Sweden), **Lance Liotta** (George Mason University, USA), **Michael Pfaffl** (Technische Universität München, Germany), **Michael Tangrea** (Lapidus Cancer Institute, USA)

## INVITED LECTURERS

**Leanne De Koning** (Institut Curie, France), **Qiaolin Deng** (Ludwig Institute for Cancer Research, Sweden), **Valerie Grandjean** (Université de Nice, Inserm, France), **Stefan Kirsch** (Klinikum der Universität Regensburg Lehrstuhl für Experimentelle Medizin und Therapieverfahren, Germany), **Kenneth Livak** (Fluidigm, USA), **Hervé Luche** (Centre d'Immunophénomique, France), **Evan Russel Daugharthy** (Harvard University, USA), **Anders Stahlberg** (University of Gothenburg, Sweden), **Christian A. Voigt** (University of Hamburg, Germany), **Svetlana Uzbekova** (INRA, France), **Jo Vandesompele** (Ghent University, Belgium)

## Technical Workshop

INRA Jouy-en-Josas

May 31- June 1
