

Seminar Series:

Trends in Metabolism and Physiology (Bio-682)

EPFL, SV1717

Date and time	Seminars
Monday 6 th March 2017 13:30 – 14:30	Mario Pende Institut Necker, Paris, France <i>Cell growth control by nutrients: focus on mTOR and class III PI3K</i> Host: Lluís Fajas
Monday 13 th March 2017 13:30 – 14:30	Christian Wolfrum ETH Zurich, Switzerland <i>Regulation of adipose tissue plasticity</i> Host: Kei Sakamoto
Monday 20 th March 2017 13:30 – 14:30	Bart Staels Institut Pasteur de Lille, France <i>Bile acid signaling in the control of metabolism</i> Host: Kristina Schoonjans
Monday 27 th March 2017 13:30 – 14:30	Marc Claret IDIBAPS, Barcelona, Spain <i>Qualitatively-different mitochondrial fusion in POMC neurons divergently regulates energy balance and glucose homeostasis</i> Host: Lluís Fajas
Monday 3 rd April 2017 13:30 – 14:30	Nicola Zamboni ETH Zurich, Switzerland <i>The journey from metabolites to mechanisms</i> Host: Kristina Schoonjans
Monday 10 th April 2017 13:30 – 14:30	Michael Ristow ETH Zurich, Switzerland <i>Metabolic control of aging</i> Host: Kei Sakamoto
Monday 24 th April 2017 13:30 – 14:30	Jorge Ferrer Imperial College London, UK <i>Non-coding genome function and diabetes</i> Host: Lluís Fajas
Monday 1 st May 2017 13:30 – 14:30	Grahame Hardie University of Dundee, UK <i>Sensing of nutrients and energy by the AMP-activated protein kinase</i> Host: Kei Sakamoto
Monday 8 th May 2017 13:30 – 14:30	Jean-Claude Martinou University of Geneva, Switzerland <i>Role of the mitochondrial pyruvate carrier in cell metabolism</i> Host: Kei Sakamoto
Monday 29 th May 2017 13:30 – 14:30	Evan Williams ETH Zurich, Switzerland <i>Making Use of 'Omics: From Systems Genetics to Cell Biology</i> Host: Kristina Schoonjans

Organizers: Prof. Lluís Fajas (UNIL), Prof. Kei Sakamoto (NIHS) and Prof. Kristina Schoonjans (EPFL)
