

CIG Seminars Spring 2017

Monday 12:15, Génopode, auditorium B, followed by sandwiches

Monday January 16, 2017

Jan van der Meer, University of Lausanne, CH

«[The secret life of mobile DNA in bacteria](#)»

Host: Liliane Michalik

Monday January 23, 2017

Nick Gilbert, The University of Edinburgh, UK

«[Regulation of large-scale chromatin architecture in mammalian cells](#)»

Host: Andrzej Stasiak

Monday February 13, 2017

Claudia Bagni, University of Lausanne, CH

«[Brain wiring and synapse shaping: the RNA-cytoskeleton perspective](#)»

Hosts: Richard Benton & Alexandre Reymond

Monday March 13, 2017

Alex Webb, University of Cambridge, UK

«[Signalling pathways regulating the circadian clock of Arabidopsis](#)»

Host: Christian Fankhauser

Monday March 20, 2017

Luca Giorgetti, Friedrich Miescher Institute for Biomedical Research, Basel, CH

«[A quantitative analysis of the hierarchical folding of mammalian genomes](#)»

Hosts: Vincent Dion & Andrzej Stasiak

Monday March 27, 2017

Virginia A. Zakian, Princeton University, USA

«[Stress at the ends: How and why telomeres respond to environmental change](#)»

Host: Vincent Dion

Friday April 7, 2017 (GEN B, 12:15)

Charles Weitz, Harvard Medical School, Boston, USA

«[PERIOD complexes of the mammalian circadian clock](#)»

Host: David Gatfield

Monday April 24, 2017

Sara Mitri, University of Lausanne, CH

«[The social lives of microbes](#)»

Host: Alexandre Reymond

Monday May 8, 2017

Derk-Jan Dijk, University of Surrey, UK

«[Circadian regulation of human sleep: a multilevel approach](#)»

Host: Paul Franken

Monday May 15, 2017

Arkaitz Carracedo, CIC BioGune of the Basque Country, ES

«[Metabolic requirements for prostate pathogenesis and progression](#)»

Host: Lluís Fajas

Monday May 22, 2017

Sven Gould, Heinrich Heine University Düsseldorf, DE

«[The impact of mitochondria on eukaryotic compartments and chloroplast protein targeting](#)»

Host: Christian Fankhauser

Monday May 29, 2017

Maricel Kann, University of Maryland, USA

«[A protein-domain approach for the analysis of disease mutations](#)»

Host: Ioannis Xenarios

Monday June 19, 2017

Stephen Liberles, Harvard Medical School, Boston, USA

«[Internal and external sensory systems](#)»

Hosts: PhD students & Postdocs

Monday June 26, 2017

Mala Murthy, Princeton University, USA

«[Neural mechanisms for dynamic acoustic communication in flies](#)»

Host: Richard Benton
